

It isn't what a man knows, but what he thinks he knows that he brags about. Big talk means little knowledge.—System.

# THE SALT LAKE HERALD.

Established June 6, 1870.

SALT LAKE CITY, UTAH, SUNDAY, MAY 2, 1909

32 PAGES, Price Five Cents.

Weather for Sunday.

Fair and warmer.

The Metals

Silver, 35¢ per ounce.  
Copper (cathodes), 12-15¢ per pound.  
Lead, 14-15¢ per 100 pounds.

## THREE BULLETS THREE LIONS THREE MINUTES

Ex-President Roosevelt Bowls  
Over Kings of Beasts Like  
Western Congressmen.

KERMIT IN RUNNING  
WITH RIFLE AND CAMERA

FIRST DAY IN MAU HILLS PROVES  
PRODUCTIVE OF MUCH  
SPORT.

Nairobi, British East Africa, May 1.—Four lions are trophies of ex-President Roosevelt's camp in the Mau hills tonight, and the two hundred or more native followers are rejoicing with the American party in the celebration of the unusually good luck.

The lions were bagged yesterday, and Colonel Roosevelt's mighty gun brought three of them to earth, each on the first shot. Thus one of the president's fondest ambitions has been realized, and he is proud too, that the fourth lion king fell before the rifle of his son, Kermit, who, however, took three shots to kill his quarry.

Both father and son are jubilant. It was their first lion hunt, and so magnificent a kill was far beyond their expectations, but lions have been plentiful in the hills for the past month, and the English hunter, W. W. Selous, has been out for several days laying plans for their extinction, and he will be succeeded can be seen of the results of yesterday's chase.

Mr. Selous accompanied the former president, who also was attended by the usual retinue of beaters. Usually the beaters go into the jungle with considerable repugnance, but as Colonel Roosevelt's reputation as a hunter had reached here long before he arrived in person, the beaters on this occasion were exceptionally enthusiastic. They seemed even eager to play a part in the first hunt of the distinguished American.

Full Array of Beaters.

The caravan started early Thursday morning from the ranch of Sir Alfred Pease on the Athi river, and proceeded slowly to the Mau hills. This range is open for wide areas, but in places is covered with dense growth where game is plentiful. The first night in camp was without special incident, no attempt being made to kill any lion, although their call was heard now and then during the night; but at dawn the camp was astir, and the drive speedily organized. The native beaters set out in all directions, under the instructions of the "head man," armed with all sorts of noise-making devices, which could not but arouse any game within earshot. Some of the beats proved blanks, but by daylight no less than ten kinds of game had been bagged. Kermit, during the greater part of the day, did more effective work with his camera than with his gun, allowing Mr. Roosevelt the much-prized shot.

Details of the actual shooting were not brought down to Nairobi today from the camp, but it was declared that in each case a single bullet from Mr. Roosevelt's rifle sufficed to bring down the lion. From this it is regarded that Colonel Roosevelt is living up to the reputation which he has gained here of being a crack shot. All the lions were of normal size and, after the natives had dragged them together in the grass, they executed the usual dance around the trophies.

The party plans to go south tomorrow with the hope of bagging one or more giraffes. The chances are Mr. Roosevelt's good luck will continue, for natives and settling of sections report game as very plentiful.

## DETECTIVE IS ATTACKED.

Black Hand Attempted Murder/Is Reported From Chicago.

Chicago, May 1.—What is believed to have been an attempt by Italian black-hand to kill Detective Gabriel Longo, one of the most active police officers, was a severe attack on Longo's wrist. The detective today described his assailant as well dressed and apparently Sicilian.

At his home his suspicions were aroused by the continued watching of the rear of his house. He went to the alley and asked the man there what he was doing. An answer, he says, he was attacked with a silencer. He grappled with the holder of the weapon, but was rendered unconscious for fifteen minutes by the blow behind the ear delivered by the second man. His assailants then ran away.

## COMMANDER RESIGNS.

Milwaukee, May 1.—Henry L. Palmer, sovereign grand master of the Supreme Council Ancient and Accepted Scottish Rite Masons of the Northern Jurisdiction of the United States, has resigned owing to ill health. This is the highest Masonic office in the United States and has been held by Mr. Palmer since 1873. United Sovereign Grand Commander James C. Lawrence of Boston will occupy the office.

## LOS ANGELES PRISONERS UNINTENDED GUESTS AT CHAMPAGNE BANQUET

Los Angeles, May 1.—More than a score of prisoners in the city jail accumulated a fine high-priced wine jag last night, and fuzzy tongues and drooping heads constitute the regular order of business around the city hostelry this morning. The police themselves were the lavish hosts of the occasion, although they did not know it until afterwards.

Last night the order was given to clean out the basement store room, where a large quantity of champagne, sparkling burgundies, sauternes, clarets and other costly wines were stored. The accumulated product of many raids and pour the liquor into the sewer. A large number of "trusties" were put to work to help open the bottles and pump it into a drainage trough which emp-

## MAY-DAY STRIKES ARE NUMEROUS

Seamen on Great Lakes  
Against Lake Carriers' As-  
sociation in Effect.

## MISSOURI MINE TROUBLES

LEAD MINERS MAY TIE UP THE  
PROPERTIES.

Chicago, May 1.—The strike of labor unions on the Great Lakes against the Lake Carriers' association, or, more correctly, their formal refusal to ship on boats controlled by the association, was put into full operation today at all ports. It is estimated that probably 12,000 seamen of all classes are involved in the great struggle. Almost 3,000 are now said to be employed on boats controlled by the carriers, and these were scheduled to leave the vessels this morning if in port, or as soon as they came in from sea.

Thousands are idle today in Chicago, Cleveland, Buffalo and other centers. The next movement of the leaders will be to request the general officers of the International Seamen's union to come to the lake district and endorse the strike. The general secretary of the International W. H. Frazier is at East Boston, but will get in touch with the situation. He probably will join George Hansen, agent of the lake seamen, at Buffalo, and President Andrew Furuseth of San Francisco will come to Chicago.

About 400 boats are controlled by the Lake Carriers' association.

## LEAD MINERS OUT.

Employees of One Missouri Company  
Stop Work.

Bonne Terre, Mo., May 1.—The strike of lead miners in Leadwood spread to this place today, when the underground employees of the St. Joe Lead company quit work. The big mills of the company here were forced to close, and 1,700 men are now idle. The St. Joe Lead company, against which the strike is directed thus far, is capitalized for \$20,000,000. Its president is Dwight A. Jones of New York.

## MONTANA BREWERY MEN.

Strike of Employees Reaches Over  
Entire State.

Helena, Mont., May 1.—The strike of brewery employees throughout Montana inaugurated last night, is complete throughout the state so far as advice received indicate. Proprietors of Helena breweries were this morning doing their best to deliver the "teamsters" union having forbidden this by its members. The proprietors of one of the Helena breweries, in an interview today, takes exception to the story telegraphed last night from Montana to the effect that the Miners' union had endorsed the strike, holding that the contrary was the case. The sole issue is as to the jurisdiction over engineers, the Brewers' union and the Butte Engineers' union both claiming this. The engineers are at work and the brewers profess to believe that they can operate their plants despite the strike of the other employees.

## New York Bakers Out.

New York, May 1.—More than 1,000 bakers of the lower east side were on strike in this city today, but as it was the Jewish Sunday, when few of the bakers are at work, the real effect will be felt until tomorrow. The bakers demand closed and sanitary shops, a scale of wages ranging from \$20 to \$40 per week and a ten-hour day.

## Pittsburg Trouble Averted.

Pittsburg, Pa., May 1.—The danger of a street railway strike with which Pittsburg has been threatened for several weeks has passed. A settlement was effected today.

## Rochester Carpenters Stop Work.

Rochester, N. Y., May 1.—May day opened here with a strike of all union carpenters in the city. The union demands an eight-hour day and an increase in pay of 50 cents a day. The minimum wage now is \$3 a day. By night the labor leader says there will be 400 men on strike.

## GLOBE ESCAPES DESTRUCTION.

Globe, Ariz., May 1.—After a desperate fight, the fire department extinguished a blaze which threatened the destruction of the building and stock of the Old Dominion Commercial company, one of the largest mercantile establishments of the city. The loss is about \$20,000, fully insured. A sensational feature was the fact that the town narrowly escaped being wrecked by a dynamite explosion. A large quantity of explosives was stored in the building and the boxes containing the dynamite caps were partially burned. Had the caps been set off the resultant explosion would have wrecked the great mercantile establishment and must have caused a terrible loss of life among the hundreds of spectators in the vicinity.

The Invasion of Holland.

## GOVERNOR FOLK SHOWS COYNNESS

Believes No One Could Refuse  
Nomination for President,  
If Called Upon.

Spokane, Wash., May 1.—"I don't think anybody would refuse to become a candidate for president if called upon," stated ex-Governor Joseph Folk of Missouri today. "That is a matter, however, to which I have not given any thought. I think the Democratic party has a good chance to win in 1912. The papers do William J. Bryan a great injustice by insisting that he has sinister designs upon the nomination. I do not think Mr. Bryan will be a candidate, though he is very close to the hearts of millions of men. Personally, I think Mr. Taft is a good man. Outside of politics, no fault can be found with him."

## LESE MAJESTE CASES ON

Delevan Smith and Charles R. Wil-  
liams Formally Arraigned  
in Indianapolis.

Indianapolis, Ind., May 1.—Delevan Smith and Charles R. Williams, proprietors of the Indianapolis News, indicted by the grand jury of the District of Columbia, with the proprietors of the New York World, on the charge of having committed criminal libel in publishing certain statements bearing on the purchase of the Panama canal by the United States government, were formally arraigned late this afternoon in the United States district court here before Judge Anderson. They were released on \$5,000 surety each, each giving it for the other.

Each of the defendants took an oath that he would appear in the United States district court in Indianapolis on May 31 to answer to the charge of criminal libel. Numerous prominent business men, friends of Messrs. Smith and Williams, were present ready to sign bonds for them, but Judge Anderson required only the surety of the defendants for themselves.

The defendants will resist removal for trial in the District of Columbia, and the court will hear evidence as to the merits of the case.

## BANKER IS CONVICTED.

R. F. Parkhurst of Seattle Found  
Guilty of Embezzlement.

Seattle, May 1.—R. F. Parkhurst, formerly assistant cashier of the First National bank, charged with embezzlement of \$50,000 from that institution, was found guilty by a jury in the federal court today. His pecuniaries, as shown by the evidence, extended through fifteen years and were covered up by manipulation of the bank's balances in San Francisco, Chicago and New York. Bank officers here were witnesses against Parkhurst and brought records that showed his operations. Parkhurst was a man of family and stood high in banking circles.

Parkhurst was convicted on one of the sixteen counts of the indictment, which charged embezzlement, false entries on the bank's books and misapplication of funds. The penalty is not more than ten years nor less than five years in prison. Sentence has not been passed.

## NEGRO IS LYNCHED.

Tyler, Tex., May 1.—A mob of 1,000 persons broke into the jail here today and lynched Jim Hodges, a negro, charged with assaulting and seriously injuring Miss Winnie Harman near here last night.

## BISHOP CONSECRATED.

Rome, May 1.—The Rev. Parrelly was consecrated bishop of Cleveland, O., today by Cardinal Gotti of the Church of the American College in Rome.

## SUGAR TRUSTS BE PROSECUTED

Criminal Action to Be Brought  
Against "Human Beings"  
Guilty of Offenses.

New York, May 1.—Criminal prosecutions by the federal government will be begun as a result of the disclosures in the recent suit of the government against the American Sugar Refining company. This announcement was made today by Henry Stimson, who is acting as special attorney for the government.

Mr. Stimson's statement followed a conference with United States District Attorney Wise in the latter's office.

"Of course, there will be a criminal prosecution of the guilty persons," Mr. Stimson declared. "There will be no let up, but, on the other hand, the case will be prosecuted to a finish."

The corporation has already been punished criminally by the \$14,000 penalties imposed," he added. "That was a punishment for criminal acts. The other \$2,000,000 was restitution of back duties accruing from false weighing. The thing for us to do now is to get at the human beings behind the corporation, either officer or employee, who have been guilty of criminal acts, and punish them. We cannot tell when the prosecution will begin, but it will be as soon as we get our testimony ready to present."

## POLICE CHIEF HAS THE BOY

Sensational Fight of Shaw Family  
for Ten-Year-Old Son  
Suspended.

Santa Barbara, Cal., May 1.—Matters are at a temporary standstill in the affairs of James F. Shaw, the wealthy Boston railroad president and state senator, and his wife, who are engaged in a sensational fight for possession of their 10-year-old son. The boy is now in care of the chief of police in this city, and habeas corpus proceedings instituted by Mrs. Shaw and directed against Shaw's detectives for possession of the son have gone over by mutual consent of the attorneys for both sides until next Thursday.

A telegram from Shaw to his attorney, Lewis Smith, of Fresno, and the detectives acting for him, directs them to leave the boy in the custody of the police until after the arrival of the father of Mrs. Shaw, H. Fisher Eldridge, a millionaire of Portsmouth, N. H. Mr. Eldridge left Portsmouth for Santa Barbara as soon as he received word of the trouble here, and is due to arrive in the city next Wednesday. Shaw's representatives here believe that he and Eldridge have reached some sort of an agreement.

Mrs. Shaw was at the ticket window of the moving picture show conducted by herself and Marjorie, the former family chauffeur, last night, selling tickets as usual. She does not appear perturbed over developments, and refers to what she calls her husband's "bluff."

## FUNERAL OF EMPEROR.

Peking, May 1.—The body of the late Kwang Hsu, the emperor of China, who died last November, today began the journey to the Western tomb, eight miles away, for final interment. The ceremony was one of unusual Oriental splendor and dignity. It was witnessed by a large number of foreigners. The dowager empress will not be interred until the fall. In the meantime her body will remain in Peking. The United States was represented by Minister W. W. Rockhill.

## WATERWORKS BONDS ENJOINED.

Helena, Mont., May 1.—The supreme court today handed down an oral opinion which, in effect, enjoins the issue of \$800,000 waterworks and \$700,000 sewer bonds.

## NEWHOUSE PLANS REORGANIZATION

In Boston Making Effort to  
Strengthen Beaver Coun-  
ty Property.

(Special to The Herald.)

Boston, May 1.—Samuel Newhouse, president of the Newhouse Mines & Smelter company, is back in the east from Salt Lake. During the past few days he has been in conference with interested parties in an attempt to strengthen the property through a reorganization or otherwise. This matter, says Mr. Newhouse, will probably not be completed before next week, when the stockholders will be informed as to the decision made. The company owes the United Metals Selling company a substantial sum for advances made it by the selling agency at the time of high-priced copper, but Mr. Newhouse has given the United company his personal notes for the amount involved.

## CARBON BONDS AT PREMIUM

Issue of \$40,000 Is Sold to Denver  
Man for the Sum of  
\$41,650.

(Special to The Herald.)

Price, Utah, May 1.—Carbon county's special court house bond issue of \$40,000 was sold today in competitive bidding to James H. Causey & Co. of Denver, Colo., at a premium of \$1,650. The next best bidder was the Harris Trust & Savings bank, which offered a premium of \$1,650, followed by E. H. Rollins & Sons, who bid \$1,510.

The court house is almost completed, and will have cost when done and furnished in the neighborhood of \$55,000. It has been carried thus far out of the revenues of the county with a loan from a Salt Lake City bank of \$10,000. There is now due the contractor but \$10,000 on the building. When this and the Salt Lake indebtedness is paid, there will be left better than \$20,000 for furnishings and improvements of the grounds, including jail fixtures.

## SONS OF REVOLUTION.

Judge Beardsley of Connecticut Is  
Chosen President.

Annapolis, Md., May 1.—The annual election of officers of the Sons of the American Revolution was held today, resulting as follows:

President General—Judge Morris B. Beardsley, Bridgeport, Conn.

First Vice President General—C. M. Geyer, Denver.

Second Vice President General—Peter F. Pescard, New Orleans.

Third Vice President General—Willard Secor, Iowa.

Fourth Vice President General—George C. Seargent, Missouri.

Fifth Vice President General—Major Moses Veale, Philadelphia.

Secretary General and Registrar General—A. Howard Clark, Washington, D. C.

Treasurer General—John H. Burroughs, Brooklyn, N. Y.

## MONTHLY COINAGE STATEMENT.

Washington, May 1.—The monthly coinage statement shows that the total coinage executed at the mints of the United States during April aggregates \$1,551,614, of which \$30,641,000 was gold, \$1,172,000 silver and \$38,614 minor coins.

## BOYLE BREAKING DOWN.

Merced, Pa., May 1.—James H. Boyle, charged with the kidnapping of Billy Whitla, has suffered a nervous breakdown and is in a pitiable condition.

## REAL WILL WEST IN OLD WYOMING

Man Mortally Wounded While  
Interfering With Execution  
of Condemned Woman.

(Special to The Herald.)

Cheyenne, Wyo., May 1.—Because Chris Arhoutes did not consider it the right of Harry Curtis to execute Mrs. Curtis for alleged favors bestowed on Arhoutes, he will die. He interfered in the impending execution, and received two bullets intended for Mrs. Curtis. Falling, he fired twice at Curtis, but missed both times. The shooting occurred at Sunrise, a C. F. & I. mining camp, 130 miles north of Cheyenne, and the Greek population, amounting to several hundred, is greatly excited over the affair. All the principals are Greeks, and their countrymen have formed into factions that threaten further trouble. So serious were threats made against Mrs. Curtis today, and against her friend, Martha Nelson, that it was thought advisable to take them out of Sunrise, and they arrived in Cheyenne tonight. Curtis is in the county jail here, and Arhoutes is dying at Sunrise.

The shooting occurred when Curtis, who is a bartender, suspected that Mrs. Curtis and Arhoutes, a laborer, were unduly familiar. He procured a gun and undertook to kill his friend. But Arhoutes rushed between them and took two bullets intended for the woman. He then fired in self-defense, unavailing, however. A bullet took him in each shoulder and penetrated to the groin, the paths of the two missiles crossing in his abdominal cavity.

Curtis made no effort to escape, and was arrested by a Sunrise deputy sheriff and was held until the arrival of Deputy Sheriff Ed School from Cheyenne. School immediately brought him to Cheyenne, as feeling was running high in Sunrise among the friends of Arhoutes.

One of the bullets was extracted from Arhoutes' body, but the other is so deeply lodged that an operation for its removal would hasten death, which is believed to be inevitable. Pending the outcome of his victim's wounds, no information will be filed against Curtis. Arhoutes is said not to be the only man suspected by Curtis, and other enemies of the prisoner are reported to be fomenting trouble at Sunrise.

## MAJOR HAINES ON STAND

Indicates That His Brother Was Af-  
fected Mentally by Wife's  
Misconduct.

Flushing, N. Y., May 1.—The cross-examination of Thornton J. Haines was concluded today at the trial of his brother, Captain Peter C. Haines, Jr., Major John Powell Haines, another brother of the defendant, was next called by the defense.

Referring to the talk the major had with the defendant after his return from the Philippines, the witness said he asked his brother to tell him everything, and the captain replied: "When I reached San Francisco from Manila I found a big bundle of letters, and after reading them was convinced there was something wrong, and I hurried east as fast as I could." The captain bowed his head in his hands and said:

"I can't remember. I can't think. This man Annis is making me crazy. Finally I went to the fort and met Claudia, his wife. She expressed surprise at seeing him, and asked him what had brought him back."

"I've come back to protect your good name," the captain told her.

"What do you mean?" she asked him.

"Why, about you and Annis," he said.

"Why, that is all foolishness," he said she told him.

"I may have been indiscreet, but Bill Annis and I have been good friends, and that's all."

"Don't you worry. Little girl," he said to her, "I'll show these people how I trust and believe in you. We'll have Billy Annis up to dinner."

"Then he went to the telephone and called Annis up and asked him to come out to dinner. Annis declined, but came later, and Mrs. Haines, the captain and Annis and his wife went to Coney Island in the automobile and were arrested for speeding. Annis drove the car."

The witness said his brother's actions were rational while he was telling him about his family troubles.

After a brief cross-examination court adjourned until Monday.

## PURE FOOD ACT UPHELD.

Test Case Is Decided in Favor of the  
Government.

Chicago, May 1.—Federal Judge Sanborn, in a test case questioning the constitutionality of the government pure food and drug act, today upheld the validity of the law.

The case was that of the government against the Crescent Manufacturing company of Seattle, makers of "Maple-line."

The government alleged that the use of this name constituted misbranding, inasmuch as this substitute for maple syrup contained no maple juices. The defense, aside from attacking the constitutionality of the law, alleged that the name was justified by the flavor of the product.

## WIFE OF JUROR IN CALHOUN TRIAL

INJURED BY STREET CAR CONDUCTOR

San Francisco, May 1.—Mrs. Otto Mackroth, wife of one of the jurors in the trial of Patrick Calhoun, president of the street railway system, in this city, on the charge of bribery, is in St. Winifred's hospital in a critical condition as a result of injuries received today during an altercation with a street car conductor over a transfer. According to attending physicians, she is suffering from concussion of the brain, and numerous bruises on the body. J. M. Law, the conductor, is under arrest at the city prison.

Juror Mackroth, who has been locked

## FROM DAMAGE MAY BE NEARLY TWO MILLIONS

Horticulturists Believe Recent  
Losses by Storm Most Se-  
vere Ever Known.

## SMUDGE POTS WERE EFFECTIVE

WEBER FRUIT GROWERS CAN  
NOT AGREE ON EXTENT  
OF DAMAGES.

\*\*\*\*\*  
Grand Junction, Colo., May 1, 1909.  
W. M. Roylance, Provo, Utah.  
Damage to crops in this vicinity  
has been very slight. Smudge pots  
saved us.  
MOORE.

\*\*\*\*\*  
The loss to the fruit crop in  
Utah by reason of the recent  
storm is probably the most severe  
that has ever been experienced.  
Here are a few figures in the es-  
timate that W. M. Roylance, the  
prominent fruit commissioner-  
chant, gives The Herald at a ven-  
ture:  
Total loss in state ..... \$1,750,000.  
Number of cars ..... 2,500  
Value of each car ..... 700  
\*\*\*\*\*

Nearly two millions of dollars "went down in ice" when the storm came, and the fruit crop of Utah was at least two-thirds destroyed. "Went down in ice" is a phrase coined for the occasion, and with a purpose. Instead of saying that something "goes up in smoke," this is the time to say that two millions of dollars would have been saved had there been smoke to go in.

Brief reference is made to the telegram from Director Moore at Grand Junction, the center of the famous fruit growing section just to the east of Utah, to the effect that the crop was very slightly damaged because there was a systematic use of smudge pots.

\*\*\*\*\*  
What Smudge Pots Are.  
"It should be a lesson to the growers in Utah," said Mr. Roylance, who is a visitor for a day. "Had they used these cheap devices they would have saved a million and three-quarters worth of fruit."

"What is a smudge pot, Mr. Roylance?"  
"It is a tin or other metal vessel oval in shape, like a wooden bowl that your good wife chops the logs in. In each, indeed, after the shape of some of the hats the women wear nowadays. They cost about 35 cents."

"Two quarts of crude oil are poured into these smudge pots, and the lot is ignited. It creates a pleasant warmth and a smoke that is hotter than I'd like to say. The oil costs about 6 or 7 cents a gallon in carload lots. From forty to 100 of the pots to the acre of orchard, according to circumstances and weather conditions, are sufficient to increase the temperature at least 10 per cent. They do not have to be lighted until 11 o'clock at night, and the oil will burn for eight hours—two quarts."

## Scientific Methods Necessary.

"I note by the morning bulletins from the local department that the lowest average was 31 degrees. Had there been placed in use smudge pots, the temperature would have been raised so that an increase of 5 or 10 degrees would have been the result. This would have prevented the formation of ice on the buds."

"As it is, as soon as the sun came out next day the ice on the buds was melted, and they were killed. In such, indeed, the proper word—cooked. And then they died, and there was no more hope of peaches or sweet cherries or plums, and little hope of pears. The damage to which I calculate is about \$1,750,000. Apples, judging from the information we have at this time, are not so badly hurt, but I look for later reports of harm to this crop also."

"The grower must get into the habit of using the latest methods of propagating their crops. The present deplorable situation is an example of what was done in the Grand valley and which was not done, generally, in Utah."

## FRUIT GROWERS AT SEA ABOUT DAMAGES

(Special to The Herald.)

Ogden, May 1.—Fruit growers are all at sea as to the extent of the damage to the fruit crop by the recent heavy frosts. One man will say that the entire fruit crop of the country has been destroyed, and perhaps a man living just across the street from him will say that little real damage has been done.

E. G. McGiff, one of the largest fruit growers in the state, it is said, will have half a crop. He lives in North Ogden. J. M. Forsistall is of the opinion that there will be half a crop of peaches, cherries and other pitted fruit in the northern part of the country.

On the other hand, it is generally conceded that through the Riverdale and Roy fruit belt, in the southern part of the county, everything has been frozen solid, so that there will be practically no fruit at all in those sections. Strawberries have been injured in all parts of the county. Raspberries.

Continued on Page 2.
